

Actions Mongolie

ACTIONS MONGOLIE intervene to help nomadic populations of Mongolia, especially **children**, and also to train local doctors.

Since 2004, our missions give **free quality care** in the Altaï, a mountainous and isolated area located 1,600 km away from the capital Oulaan Baatar, which counts 94,000 inhabitants, and, since 2008 in the Gobi, located 700 km.

The population is mainly composed of nomadic herders who are entertaining shepherding way of life, following the nature and living in a yurt, and an **extremely cold climate in winter**.

In the Altaï, we progressively installed an operating theatre and a consultation unit dedicated to ophthalmologic operations, and then a glasses factory in order to equip **children** with adapted optical corrections.

Our medical unit already exceed
104 surgeries, **2655** consultations and formed **10** doctors
and **2** local opticians.

Actions Mongolie

Our humanitarian involvement is totally **voluntary** to help nomadic people from Mongolia and was honoured by the President of Mongolian republic during his last Presidential trip to France.

« Steppe by steppe », we are demanded to amplify our actions by expanding into other areas and share our experience, and by developing a general medical help in the closest life of nomadic people.

**YOUR HELP IS NECESSARY FOR HELPING
OUR HEALTHY ACTION**

**YOUR MEMBERSHIP IS ESSENTIAL
TO FINANCE IT.**
